TERMINAL DISCLAIMER PURSUANT TO 37 C.F.R. § 321(c)

I, Daniel B. Ruble, represent that I am an attorney of record in the above-identified patent application.

Sealed Air Corporation (US), the owner of a 100 percent interest in the above-identified application, hereby disclaims, except as provided below, the terminal part of the statutory term of any patent granted on the above-identified application which would extend beyond the expiration date of the full statutory term as defined in 35 U.S.C. §§ 154-56 and 173 of either of the prior patents forming the basis of the double patenting rejection -- namely, U.S. Patents 5,699,902 and 5,899,325. Any patent granted on the above-identified application shall be enforceable only for and during such period that it and the prior patents are commonly owned. This agreement runs with any patent granted on the above-identified application and is binding upon the grantee, its successors, or assigns.

In making this disclaimer, no terminal part of any patent granted on the above-identified application before the expiration date of the full statutory term of either of prior U.S. Patents 5,699,902 and 5,899,325 is disclaimed if the relevant prior patent: (1) expires for failure to pay a maintenance fee; (2) is held unenforceable or is found invalid by a court of competent jurisdiction; (3) is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. § 1.321; (4) has all claims canceled by a reexamination certificate; (5) is reissued; or (6) is otherwise terminated before the expiration of its full statutory term.

Please charge the fee required by 37 C.F.R. § 1.20(d), believed to be \$110.00,
as well as charging any additional fees or crediting any overpayments, to Deposit Account
